

International Civil Aviation Organization
**First Meeting of the Regional Aviation Safety Team
(RAST/01)**
ICAO NACC Office, 15-16 February 2010, 0830 hours

DRAFT AGENDA

- Agenda Item 1: Review and Approval of the Draft Meeting Agenda
- Agenda Item 2: RASG-PA Overview
- Agenda Item 3: Review RAST Terms of Reference (TORs)
- Agenda Item 4: Analysis of Controlled Flight into Terrain (CFIT) - #2 Identified Risk Area
- Agenda Item 5: Analysis of Loss of Control – In Flight (LOC-I) - #3 Identified Risk Area
- Agenda Item 4: Other Business

REGIONAL AVIATION SAFETY GROUP – PAN AMERICAN (RASG-PA)
REGIONAL AVIATION SAFETY TEAM (RAST) WORKING GROUP
DRAFT TERMS OF REFERENCE

Purpose of the Regional Aviation Safety Team:

- Analyze data-driven safety risk areas identified by RASG-PA using the Global Aviation Safety Roadmap process,
- Recognize possible mitigation measures and provide recommended actions categorized by;
 - a) Impact (High, Medium and Low),
 - b) Feasibility (Difficult, Moderate and Easy) taking into consideration political will, Commitment / Consensus, Resource Requirements, Availability for implementation, Potential Blockers – what conditions exist that could prevent implementation,
 - c) Impact-Changeability (IC) Indicator (P1, P2, P3, etc.),
 - d) Priority and
 - e) Champion.
- Recommend establishment of achievable projects based on prioritized mitigation measures with well defined deliverables (including metrics to assess the effectiveness of the proposed mitigation actions) and clear timeframes established to RASG-PA for further action.

Membership:

- ICAO contracting States of the NACC and SAM Regions
- International and Regional Organizations
- Aircraft Manufacturers
- Other representative organizations, or any entity directly involved in aviation safety may be invited to join the working group as a full member or observer as decided by RASG-PA Secretariat

Roles and Responsibilities

- Principal Lead – Miguel Marin Technical Officer Flight Operations (OPS)
- Facilitators and logistic support – Eduardo Chacin, ICAO NACC Flight Safety Officer, Adolfo Zavala, NACC ATM Officer
- RAST Workgroup Members – Provide technical expertise in analyzing and identifying achievable mitigation measures for identified flight safety risk areas in the NACC and SAM regions.
